

FORMED TUBING

Solving difficult routing problems
with leak free designs is our
core competency.

Omni
SERVICES

*Pioneering Fluid Transfer Solutions
- Since 1976 -*

SERVICE OFFERINGS

- CAD Modeling
- Reverse Engineering of Existing Parts
- Rapid Prototyping
- 3D Printing
- Pressure Testing
- CMM Dimensional Verification
- Dedicated Quoting Department
- Kitting
- Blanket Orders
- Build Ahead / Customer Lockers / Dedicated Inventories

METAL FINISHINGS

- Annealed
- Passivated
- Scotch Brite
- Chromium (CR6F)
- Powder Coated
- Painted
- E-Coating
- Plating

QUALITY

- ISO 9001:2015 Registered
- CMM and Laser Inspection
- QC and Engineering Department

CAPABILITIES

- Mandrel Bending up to 65mm / 2.55"
- Tube to Flexible Hose Hybrid Assemblies
- Fabricated Metal Parts (Brackets, Braces, Etc.)
- Custom Bending
- Mandrel & Non-mandrel Bending
- Tagging / Bar Coding
- Tube End Forming
 - ORS
 - JIC
 - Metrics
 - Code 61 / 62
 - Hose Beads
 - Sanitary
 - Flanged
 - Vacuum Flanges

- Custom Machined Fittings
- Milling / Drilling
- Pressure Testing: Hydrostatic, Helium, Nitrogen
- Orbital Welding
- Automated Tube Cutting
- Robotic Automation
- Welding / Brazing

MATERIALS

- SAE Hydraulic Tube
- Square Tube
- Copper Flashed Thin Wall Hydraulic Tube
- Stainless Steel Tube
 - Metric Tube
 - Seamless
 - Welded
- Aluminum Tubing
- Copper Tubing
- Solid Rod
- Galfan
- Schedule Pipe
- Bending from Coil Materials
